## THE GRAND CENTRAL HOTEL.

THIS WELL-KNOWN AND POPULAR HOTEL  
is three stories in height and contains 36  
rooms all well lighted and sunny, and furnished  
in modern style. The dining room is a home for  
the traveler, where he can get the very best  
market afford, and the bar is second to none  
in the State. Try the Grand Central once and  
you won't stop anywhere else.  
DAN O'KEEFE,  
1614 Proprietor.

## Baptizing a Chinese Baby.

There is a pretty baby in Chinatown  
who enjoys the proud distinction of hav-  
ing been baptized in a purple velvet  
brocade dress imported from Paris.  
Her name is Suey Mey Lau. The bap-  
tismal name, Suey Mey, means crystal.  
She is the daughter of Tom Yin Kim  
Lau, a well known dealer in Chinese and  
Japanese curios. The little one is ten  
months old. Her handsome costume,  
although of expensive European ma-  
terial, was made up in the Chinese con-  
ventional style for babies, that is, with  
loose blouse and wide trousers.

Little Suey Mey was baptized on Sun-  
day in the Chinese Methodist mission by  
the Rev. F. J. Masters, pastor of the  
church of which Suey Mey's parents are  
members. She has one sister, eight  
years old, who was baptized some time  
ago. The number of Chinese babies who  
have been christened in a style similar to  
white babies is surprisingly large.

Chinese mothers who have adopted the  
Christian faith carry their babies to  
church as early as possible, and Chinese  
parents often take their children with  
them to the communion table just as  
soon as the little ones are old enough to  
be taught. They are beautifully dressed,  
often in rich silks, and the infant class  
in the Chinese Sunday school looks liter-  
ally like a convention of oriental dolls in  
all the colors of the rainbow.—San  
Francisco Chronicle.

## Narrow and Broad Gauges.

How many people remember the fa-  
mous "battle of the gauges?" The vic-  
tory of what was once known as the  
"narrow gauge," but is now the stand-  
ard or broad gauge, since narrower  
ones are not unknown, is so absolute that  
this is the last year of the existence of  
Brunel's measurement for the Great  
Western Railway company's permanent  
way. For many years on that line the  
broad gauge has been disappearing, and,  
as announced in our report of the com-  
pany's half yearly meeting, the change  
is to be complete by the 20th of May  
next. The disappearing gauge, origi-  
nally adopted on the Great Western  
railway on Brunel's plans, is 7 feet.

The common gauge, now roughly  
called the 4-foot way, is really 4 ft. 8 1/2 in.  
That is the difference between the rails,  
the fractional measurement being, we  
believe, explained by the fact that origi-  
nally the width of the rails together  
made up an additional 3 1/2 inches, and  
gave a wheel track of exactly 5 feet to  
suit the earlier locomotives and trains.  
The heads of rails are now much broader,  
varying on the different lines from 2 1/2  
to 3 1/2 inches, or together from 5 to 5 1/2  
inches.—London News.

## A Man of Nerve.

A pretty exhibition was given by the  
students of Springfield Medical college,  
under the auspices of the Young Men's  
Christian association. It was the resus-  
citation of a man who had been smothered  
by smoke. In a large hall had been  
erected a wooden structure, which was  
filled with Roman candles, firecrackers  
and other combustibles. In the midst  
of all these the unfortunate had been  
placed for suffocation, and the building  
fired.

Shortly afterward the victim of the  
experiment was taken from the house of  
smoke in a thoroughly unconscious con-  
dition. He was put through a process  
of pumping and rubbing, and in the  
course of thirty minutes was again walk-  
ing around the hall. This Mr. Taylor  
thinks the quickest process he has ever  
seen for bringing to life a person who  
has been smothered or one who was suf-  
focated from smoke.—Richmond Dis-  
patch.

## A New Use for Telephones.

The telephone is about to have a new  
application, namely, that of foretelling  
storms. A new discovery has been made  
as to one of the properties of this means  
of transmitting sound. By placing two  
iron bars at seven or eight meters dis-  
tance from each other, and then putting  
them in communication on one side by a  
copper wire covered with rubber, and on  
the other side with a telephone, a storm  
can, it is said, be predicted at least twelve  
hours ahead through a dead sound heard  
in the receiver.

According as the storm advances the  
sound resembles the beating of hailstones  
against the windows. Every flash of  
lightning, and, of course, every clap of  
thunder that accompanies the storm pro-  
duces a shock similar to that of a stone  
cast between the diaphragm and the in-  
strument.—Cincinnati Commercial Ga-  
zette.

## A Singular Coincidence.

Quite a singular coincidence occurred  
a few days since. Some ten years ago,  
while at work in a New Jersey mine  
shaft, George Smith fell and found him-  
self confined in a well 125 feet from the  
surface of the ground. He was finally  
rescued from his uncomfortable position  
by a rope which was thrown him.  
While relating the circumstance the  
other day to his room mate, he was not  
a little surprised to learn that his res-  
cuer of ten years ago was none other  
than his present companion.—Beverly  
(Mass.) Times.

J. S. Parker, of Lincoln Creek, Wash.,  
killed fourteen bears—eleven full grown  
and three cubs—in one week's hunting  
near his home two weeks ago. He  
bagged five the first day that he was  
out. Bears are exceedingly plentiful in  
that section of the state, and another  
hunter killed twelve bears there a month  
or so ago. Mr. Parker holds the record.

## Children Cry for Pitcher's Castoria.

## Chased by a Bear.

A Hazelton man, Williams by name,  
will be more careful in the future what  
he strikes at with his whip when in the  
woods. The other day while riding  
horseback along a mountain road he saw  
in the bushes close at hand what he took  
to be a black dog. As he passed he  
struck it a blow and the next moment  
he was horrified to discover that it was  
a bear. Bruin immediately started in  
pursuit, and although he lashed his  
horse the steep hill was against him, and  
the bear soon was close enough to make  
a jump and fasten his claws in the back  
of the buggy.

Williams gave him a push that com-  
pelled him to drop to the ground, but  
before he reached the top of the hill the  
bear succeeded in getting a foothold  
again, only to be again dislodged. When  
the summit of the mountain was reached  
and Williams' horse had level ground  
before him Bruin was left behind.—Phil-  
adelphia Ledger.

## Prince Sigismund's Sarcophagus.

A small sarcophagus has just been  
added to those in the chapel at Pots-  
dam, where the Emperor Frederick and  
his two little sons are buried. It is that  
of Prince Sigismund, for which the Em-  
press Frederick herself has drawn the  
design. The sarcophagus, inside of  
which the little purple velvet coffin has  
been placed, is of white marble, and by  
its side the figure of the mother, also in  
marble, is sitting with her dead child in  
her arms.

A medallion portrait of Prince Sigis-  
mund, lying on a cushion, has its place  
on the lid of the sarcophagus, the front  
of which bears the inscription: "Here  
rests in God, Franz Friedrich Sigis-  
mund, Prince of Prussia, the beloved  
child of Crown Prince Friedrich Wil-  
helm and of the Crown Princess Victo-  
ria. Born Sept. 15, 1864; died June 18,  
1896. Blessed are the pure in heart,  
for they shall see God."—Pall Mall Ga-  
zette.

## A Horse Mackerel.

The fishermen of Kittery were sur-  
prised, on going out to their weirs the  
other morning, to find it occupied  
by a horse mackerel weighing 1,500  
pounds, especially as the trap had  
been shut close. The surprise is  
that in his wanderings he was at-  
tracted to the weirs by the mackerel  
in it, and, finding no way of ingress,  
on the high tide jumped over the netting.  
The point was to capture him without  
tearing the seine or netting, which was  
finally accomplished, after a four hours'  
hard struggle, by the aid of a harpoon.  
He was towed out to sea and set adrift.  
—Exchange.

John G. Whittier is so modest that  
his niece, who is preparing a biography  
of him, has found it very difficult to ob-  
tain any aid from him in her work. His  
strength is gradually failing, and he is  
forced to give up the long walks which  
he formerly took.

Balzac's house and the grounds about  
it in Paris have been purchased by the  
Baroness Rothschild, who intends to pull  
down the house and add the grounds to  
those already surrounding her fine resi-  
dence on the Rue Berryer.

The new city hall of Philadelphia will  
be the tallest building on the continent,  
excepting only the Washington monu-  
ment. It will be two inches more than  
547 feet in height, and will cover an area  
of four and a half acres.

The Silver State reports Hon. O. H. Gray, one of the members of the State Board of Assessors, as saying:

"The reason the railroads are not included in the horizontal raise, is because the Board did not understand the situation when it made the assessment of that property, and it is now too late to rectify the mistake."

This candid admission of one of the members of the State Board of Assessors, implies that in the opinion of the Board, the railroads ought to be assessed twenty per cent. higher than they are. Such being the fact, as the Board cannot rectify the mistake and place the valuation of the roads as high as it thinks it ought to be, in justice to the other taxpayers, it should rescind its resolution to raise the valuation of their property twenty per cent. and thus equalize the assessment. The mistake of horizontally raising the valuation of all property, other than railroads, twenty per cent. it has power to rectify, and one of its first acts should be to make the correction.

If the taxation of railroads is admitted by the Board to be unequal to that of other property, as the Constitution provides that all property belonging to corporations shall be subject to taxation the same as property of individuals, if the Board of Assessors has not the authority to make a horizontal raise of railroads, it would seem that it has not authority to make such a raise on other property.

THE COLFAX TRAIN WRECKERS

It has been ascertained beyond a doubt that the wrecking of the overland passenger train at Colfax was caused for the purpose of robbery. Fiends in human form drew spikes which held the rails in place, causing the cars, which were filled with passengers, many of whom were women and children, to leave the track on a steep hillside, endangering the life of every person on board and resulting in serious injury to many of them.

There is scarcely any punishment that can be inflicted sufficiently severe for the perpetrators of this crime. They have not yet been captured, though officers are scouring the country in search of them. Failing to hunt them down the Central Pacific Company should offer such a reward for their arrest and conviction as would induce officers throughout the country, where they are likely to be concealed, to make diligent search for them. The crime is so villainous that expense should be a secondary consideration in bringing its perpetrators to justice.

COMPROMISED.

According to report the contest for the millions of the late Mrs. Hopkins-Searles is ended. A compromise, it is stated, has been effected, by the terms of which Timothy Hopkins, the adopted son of Mrs. Searles, is to receive eight or ten millions from the estate. Whether the amount is to be paid in cash or its equivalent in the stock of the Southern Pacific Company, is not stated, but if Searles and Huntington are on as intimate terms as has been represented, and Huntington desires to maintain his supremacy in the railroad company, Hopkins will probably get cash.

There are numerous heirs, or at least blood relations, of Mrs. Searles, who have signified their determination to contest the will, but as most of them will be satisfied with a small slice of the big loaf left by the lady, it is probable that a compromise will be effected with them and that the matter will be settled out of the courts.

THE PULLMAN CAR COMPANY.

The Pullman Palace Car Company has decided to increase its capital stock from \$25,000,000 to \$30,000,000. The company organized originally about a dozen years ago with a capital stock of \$6,000,000. The business of running palace cars became so profitable that the stock had to be watered to prevent the annual dividends from exceeding the capital stock. This is the eighth time the watering operation has been performed, and the undivided profits are over \$36,000,000.

This is the company which runs the palace cars and its gilded conductors through the State of Nevada, and notwithstanding the immense profits of the business, these cars have not been subjected to a horizontal raise, nor their owners notified of an individual raise, in fact, they escaped the notice of the State Board of Assessors and have not been assessed at all.

The fast vestibule train on the Chicago and Eastern Illinois road, was wrecked at Ote, a small town 30 miles from Chicago, and Engineer Clarke and three Inter-Ocean reporters, who were riding on the engine, were killed. The accident was caused by an open switch.

Count Ludwig Arco-Valley, German Minister to the United States, died in Berlin from an operation performed for stomach troubles, in the 47th year of his age.

A Murder Trial.

SALINAS, Cal., October 15.—The Hawes murder case commenced here to-day. Last July, in Monterey Hawes shot and killed a young drug clerk named Wagner, because the latter refused to sell him ten cents worth of morphine on credit. The crime aroused great excitement and an attempt was made to lynch Hawes, but he was removed to Salinas before the mob could get him.

News of Importance From Home and Abroad.

The San Francisco Grand Jury a Legal Body.

SPECIAL TO THE JOURNAL.  
LOS ANGELES, October 15.—The Supreme Court this afternoon after adjournment filed with the Clerk the following certificate of opinion in the case of the ex parte Haymond habeas corpus, deciding the validity of the San Francisco Grand Jury. The petitioner was subpoenaed as a witness before the Grand Jury of San Francisco. He refused to appear and testify upon the ground that in his opinion the Grand Jury was not a lawful body.

For this refusal he was convicted of contempt of the Superior Court and sentenced to a fine and imprisonment. Thereupon he sued out this writ under which he prays to be discharged from custody. It is not controverted that he must be remanded and the writ discharged unless he can show that the Superior Court exceeded its jurisdiction in the contempt proceedings. In order to do this the petitioner offered in evidence the record of the proceedings of the Superior Court in ordering, selecting, summoning and impaneling the alleged Grand Jury, from which he contends that it appears that the Superior Court was guilty of such grave irregularities and violations of the plain statutory provisions that the body of men by it sworn and impaneled is not even a de facto Grand Jury.

Without passing upon the question as to whether the Grand Jury before whom the petitioner was summoned to appear was impaneled in accordance with the provisions of law, relating to that subject, it is sufficient for us to say that such a body has certainly a de facto existence, and this being so, the witness was clearly guilty of contempt in refusing to testify. When a court having legal authority to impanel a Grand Jury has sworn and impaneled a competent number of persons as such, and itself recognized in a body so formed as lawful, a Grand Jury charges it with the duties of a Grand Jury and it is engaged in the performance of such duties. A person summoned to testify before it, cannot raise the question of its competence to act. His duty is to testify as required, leaving the question of the legality of the Grand Jury to be tested in modes provided by law by those who may have the interest in question. The petitioner on his own showing has been regularly and properly convicted and must be remanded. The writ was discharged and the prisoner remanded.

Mysterious Fires.

SPECIAL TO THE JOURNAL.  
SAN BERNARDINO, Cal., October 15.—During the past few months several mysterious fires have occurred in this city, among them being the Odd Fellows' hall on D street, school house, Times-Index office, besides several barns and two ward school houses. Some six years ago Sheriff Seymour took the matter in hand personally and finally got on the trail of the supposed incendiary. He kept strict watch on his man which resulted in the arrest last evening of George Jesserang, a painter and Deputy County Assessor. He is a prominent Odd Fellow and has been generally considered above reproach. The barn of Deputy Sheriff Holcomb was set on fire last evening. At that fire while Jesserang was holding the hose that was playing on the fire he was arrested. The most peculiar and suspicious thing about this case is it is reported that Jesserang at each of the fires has been the man to give first alarm. There appears, however, to be no motive for this man to start fires.

Fatal Termination of a Quarrel.

SPECIAL TO THE JOURNAL.  
SONOMA, Cal., October 15.—Great sympathy is expressed in this valley for Perry Sears who shot and killed John Rebl on Sears' ranch at noon to-day. The killing was done with a bull dog pistol, two shots taking effect in the body of Rebl. The act was clearly one of self-defense. J. R. Rogers of Petaluma, attorney for Sears, arrived in town to-day and is looking out for the interest of his client, who, aside from to-day's difficulty, has been engaged in a long and bitter contest with his sister, Mrs. B. G. Snyder, over the possession of his farm of 800 acres. The difficulty to-day is the outcome of this suit, which has been prosecuted against Sears to the bitter end.

Trial of Ex-Treasurer Austin.

SPECIAL TO THE JOURNAL.  
SAN RAFAEL, Cal., October 15.—The case of ex-Treasurer Austin, charged with embezzlement, was resumed this afternoon in the Superior Court before Judge D. J. Murphy. A full jury was secured and the case was continued to Monday at 10 o'clock.

The annual meeting of the Presbyterian Synod of the Pacific convened here this evening at the Presbyterian Church. The meeting will continue for several days. About 200 ministers of the Presbyterian Church are in attendance.

Blaine In Fine Health.

SPECIAL TO THE JOURNAL.  
BOSTON, October 15.—Senator Hale of Maine says of Mr. Blaine: "You would hardly know him for the same person that passed through Boston last June. He eats well, sleeps well, and his mind is as active and alert as ever. He passed some time with me at Ellsworth on his journey from Bar Harbor to Augusta." The reports of Tuesday that Mr. Blaine had been the victim of paralysis were all nonsense.

Dalton Acquitted.

SPECIAL TO THE JOURNAL.  
VIRALIA, Cal., October 15.—William Dalton, charged with complicity in the Alila train robbery, has been on trial in the Superior Court for ten days. This afternoon the jury returned a verdict of not guilty, being out only thirty minutes. The prisoner cried when the verdict was read, while his wife and attorney shook hands with the jurymen. Dalton was immediately arrested on a charge of robbery committed in San Louis Obispo county.

San Francisco Postoffice Site.

SPECIAL TO THE JOURNAL.  
SAN FRANCISCO, October 15.—President Harrison has replied to the protest sent him by the Chamber of Commerce against the postoffice site recently selected. The President says the law gives him no power over the question, but he has constituted a board to decide it.

No reply has yet been received to the protest sent to Postmaster General Wamaker.

A Son of General Lee Dies.

SPECIAL TO THE JOURNAL.  
ALEXANDRIA, Va., October 15.—General W. H. F. Lee, the second son of General R. E. Lee, died at Ravensworth, Fairfax county, this evening, aged 54. He had represented this district in Congress for two terms, and was a member elect of the next House. The cause of his death was heart trouble and dropsy.

Big Trotting Race.

SPECIAL TO THE JOURNAL.  
LOS ANGELES, October 15.—Los Angeles has secured the sensational event of the year for the annual fair which begins on Monday. The Association offered Wanda, Silas Skinner, Frank M. and McKinney a purse of \$1,500, and the owners have all agreed to trot.

NEVADA FLOUR.

Why Is It Not More Generally Used?  
Nevada wheat is conceded to be equal to any that grows, and far superior to grain of the same character produced in wet climates. It is plump, hard and free from must or mold. It is manufactured into flour by skilled millers with the most approved machinery. The flour is equal to the best brands made in California, yet for some unexplained cause, very many Nevadans, including those who are loud advocates of the theory of encouraging home industry, use the California article. There has been quite a controversy on the subject in the columns of the Virginia Enterprise, and one of the disputants has this to say on the question:

The statement that two-thirds of the flour used in Nevada is imported is certainly a very conservative one. I believe it is safe to assume that the people of this county use fifty sacks of California flour for every one of the Nevada product; perhaps more than that. The fact is, Comstock merchants do not keep it. Some time ago I wanted to get Nevada flour. After considerable inquiry I was informed that it was kept at two stores in the city. I went to a prominent store and asked for Nevada flour. One of the clerks told me that they had some in hundred-pound sacks, but he would not recommend it; he would recommend another brand, naming a California article, for which he charged me \$4.25 cents more than any other flour was selling for. The fact is, Comstock merchants will not keep it, nor recommend it. There must certainly be some reason for this. The people of this county are constantly told that it is their duty to patronize home merchants. This advice is always inspired by our merchants, and yet they will not encourage a single home industry. Consistent, is it not? Hundreds of people have no choice in ordering flour, and the California article is always sent to them. As to quality, the world does not produce a better article than the State of Nevada does.

Flour is about the only article of consumption manufactured in Nevada, and as it is equal to the best imported, why not give it the preference? We cannot expect to build up a State unless we utilize its products to the full extent of our requirements and give them the preference, when they are equal in quality to the imported article. Thousands of bushels of wheat will be shipped out of the State this year, and it looks absurd and shows that there is something radically wrong to have the ears which take wheat to the seaboard returned loaded with flour.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly upon the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c.

The Supervisors of Nevada county, California, favor the proposition of the Sheriff to procure blood hounds to be used in hunting criminals. It is believed that with the aid of such dogs the desperadoes with which the county is infested, can be traced to their hiding places and captured.

A Pure Baking Powder.

A baking powder that can be depended upon to be free from lime and alum 's a desideratum in these days of adulterated food. So far as can be judged from the official reports, the "Royal" seems to be the only one yet found by chemical analysis to be entirely without one or the other of these substances and absolutely pure. This, it is shown, results from the exclusive use by its manufacturers of cream of tartar specially refined and prepared by patent process which totally remove the tartrate of lime and other impurities. The cost of this chemically pure cream of tartar is much greater than any other, and it is used in no baking powder except the "Royal," the manufacturers of which control the patents under which it is refined. Dr. Edward G. Love, formerly analytical chemist for the U. S. Government, who made the analysis for the New York State Board of Health in their investigation of baking powders, and whose intimate knowledge of the ingredients of all those sold in this market enables him to speak authoritatively, says of the purity, wholesomeness and superior quality of the "Royal."

"I find the Royal Baking Powder composed of pure and wholesome ingredients. It is a cream of tartar powder, and does not contain either alum or phosphates, or other injurious substance."

Professor Love's tests, and recent official tests by both the United States and Canadian Governments, show the Royal Baking Powder to be superior to all others in strength and leavening power. It is not only the most economical in use, but makes the purest, finest flavored and most wholesome food.

Do not forget to hear Senator Wm. M. Stewart on "Silver, Gold and Progress" at the Opera House this (Friday) evening. Senator Stewart is the world's acknowledged champion of the white metal, and the subject is so near the hearts of the Nevadans that a rousing crowd should greet him.

Governor Colcord, Attorney General Torreyson, Secretary of State Grey, Controller Horton and E. D. Van Derleith, Secretary of the State Board of Assessors, having completed their labors in Washoe county, departed yesterday for Carson where they will attend to Ormsby county's taxes.

Free Water.

Parties in Reno having good wells or a place for one are throwing away money in paying water rates, when by a small investment plenty of pure water is at their command free of cost. One good well will supply water for several families, who by joining in the expense of erecting a wind-mill, tank, etc., can not only effect a saving in expenses, but be independent of a monopolizing water service. A visit to the Water Company's reservoir and ditch at times will convince the most skeptical that well water is the doctor's enemy, while surface water is the direct agent in bringing business to his office.

Constant pumping insures pure water from all good wells, hence the quality of well water cannot be judged properly from only occasional pumpings. Many unused wells would furnish plenty of pure, clear water if properly pumped.

Can you afford a pumping plant of your own? We will answer for you, Yes.

We are prepared to take contracts this Winter to erect any sized wind-mill plant required, with proper tank and service connection, furnishing them on a monthly installment plan, warranting all work and taking proper care of all mills so erected.

Plans and specifications free upon application. Anti-freezing pumps and protected pipes insure equally as good Winter service as in Summer. For further particulars call on Oct 16 RENO MFG. CO.

N. P. Wildrick has leased the Clarendon House restaurant near the depot and will run the dining-room in first-class style. Meals at all hours.

WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings, which causes painful running sores on the arms, legs, or feet; which develops rashes in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla.

"My daughter Mary was afflicted with scrofulous neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CARLIZ, Nauright, N. J. N. B. Be sure to get only Hood's Sarsaparilla Sold by all druggists, \$1; six for \$5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

Notice. Being unable to attend to business on account of sickness I authorize C. A. Thurston to collect all assessments due the Northwestern Masonic Insurance Company, and to issue receipts for the same. Oct 16 B. E. HUNTER.

SUNDERLAND'S ADVERTISEMENT.

JOHN SUNDERLAND'S MERCHANT TAILORING DEPARTMENT.

BREVITIES:

The signal service predicts rain.  
L. L. Crockett was a passenger for Carson yesterday.  
Senator Folson returned to Carson yesterday morning.  
A. J. McConne was a passenger on last night's V. & T.  
C. C. Wallace departed for the Capital City yesterday.  
Nott Leete was a passenger for Wadsworth yesterday.  
Miss Haydon was a passenger on the east-bound train yesterday morning.  
John Sunderland made a flying business trip to Wadsworth yesterday.  
The V. & T. train pulled out well loaded with State celebrities yesterday morning.  
George Russell, one of Nevada's World Fair Commissioners, came in from Elko last night.  
The case of Datta vs. Gammons after argument was submitted to Judge Cheney for decision.  
Sam Wright, wife and daughter, came down from Carson last night and continued on to the city.  
L. Godchaux, the cattle buyer, passed through yesterday on his way to Humboldt county.  
J. W. Owens, of the well-known firm of Grayson, Owens & Co., is in Reno looking after beef cattle.  
Secure season tickets at Pinniger's for the Lyceum lectures and thus obtain the privilege of a reserved seat.  
Miss Susie Shoemaker departed for Wadsworth yesterday morning where she will remain for a week or so.  
Four million bushels of wheat have been destroyed by rain and snow in North Dakota during the past week.  
O. Hildebrandt, the piano tuner, left yesterday afternoon for Sacramento and will not return until January.  
The case of Bowman vs. The Golden Fleece Mining Company occupied the day yesterday in the District Court.  
A large number of witnesses in the case of Datta vs. Gammons departed for Carson and Genoa yesterday morning.  
Chas. Colburn and wife came down from Carson last night to be present at the tennis tournament which takes place to-day.  
Richard Kirman, the cattle man, who was a witness in the Datta-Gammons case, departed for Virginia City yesterday morning.

Prof. Hoskins, the well-known band leader, who is an expert cornet player, will favor the Lyceum to night with one of his choice selections.  
District Attorney Plummer of Elko, and Abe Hesson, formerly Assessor of Elko county, were passengers for Carson City yesterday morning.  
The ball to be given by Washington Lodge No. 25, A. O. U. W., October 30th promises to be a grand affair. Music by Fredrick's Orchestra.  
A large crowd was at the depot yesterday and there was considerable hobnobbing going on. The assessment question was the absorbing topic of conversation.  
The Washoe farmer is now engaged in unearthing his 5-pound potatoes and will begin next week to gather the rose-cheeked apple. This crop is the largest ever gathered in Washoe county.

Miss Ada Finlayson will render a vocal solo at the Opera House this evening. This is Miss Finlayson's first appearance since her return and the Reno people who fail to be there will miss a treat in the musical line.  
Senator T. B. Riskey passed through Reno yesterday morning with the remains of his wife. The sudden bereavement is sad and the many friends of Mr. Riskey extend their heart-felt sympathy in his hour of sorrow.  
R. V. Borden, representative from the jurisdiction of Nevada to the Sovereign Grand Lodge, I. O. O. F., has returned from St. Louis. He was accompanied to Winnemucca by his associate representative, B. F. Riley of Humboldt.

The Silver State says there is general talk in Humboldt of getting up a monster petition addressed to the State Board of Equalization, protesting in strong and unmistakable language against the present proposed raise of taxes in that county.  
B. E. Hunter, who attends to the business of the Northwestern Masonic Aid Association, in Reno, is confined to his house with an attack of rheumatism, and gives notice in another column that C. A. Thurston will attend to the business during his illness.  
Sibyl Sanderson of San Francisco has scored another success in Paris in the opera "Nanon." A Paris dispatch says: In this role Miss Sanderson was seen at her best. The first act was not finished before she had won her house, and at each fall of the curtain she received an enthusiastic recall. Her experience since she was last in Paris has been turned to good account, and her acting now is as good as her singing. Her voice has a remarkable compass, and she is daring and skillful in her management of it.

PROCEEDINGS OF THE SIXTH ANNUAL CONVENTION.

The sixth annual convention of the Nevada Women's Christian Temperance Union, held in Genoa, October 6 and 7, 1891, was one of the most pleasant and profitable gatherings of the organization. The weather could not have been more delightful, the people more hospitable and the workers more active.

The devotional exercises throughout the entire convention were a spiritual up-lift to all present. Mrs. Merrill's bible talk on Wednesday is worthy of special mention, so full was it of the treasures of the word. Both day and evening sessions were crowded with addresses, reports, business, etc.  
The State President, Mrs. Lucy M. Van Deventer, gave the annual address and Mrs. Caroline B. Norcross presented an interesting report. Mrs. Norcross has been most faithful as Corresponding Secretary of the State Union. At her own request she was relieved of the office but she is still in the work to do and dare for the right. Mrs. Elizabeth Webster's Legislation and Petition report showed what a woman who is known not to neglect her duties could do outside of her home when alive to the real interests of the State. "The right woman in the right place," was the verdict of all who heard the report.

Mrs. Lena M. Westlake's talk to the convention on Department Work was most timely. Study, plan, execute, were some of the important points of the talk.  
The Evangelistic Superintendent, Mrs. Eliza J. Talbot, Mrs. Grace B. Logan, Superintendent of the Juvenile and Sunday School Work, and Mrs. Mary Boyd, Superintendent of Franchise, each had papers full of excellent thoughts and helpful suggestions.

The paper on Narcotics and Their Evil Effects, prepared by Miss Arda Van Duzer, a graduate of our State University, and read by Miss Dora Stanley, one of the Reno Y's, awakened great interest and was received with no little praise, coming as it did from one of Nevada's own bright, young women.  
Rev. J. H. N. Williams of Winnemucca favored the convention with a paper of great merit, which was read by Mrs. Amanda Taylor, President of the Genoa Union. Mrs. Frances J. Crawford, State Treasurer, whose presence is always a benediction, gave wise counsel.

Rev. C. L. Logan of Carson, Rev. T. E. Sisson, Secretary of the C. L. S. C., and Rev. B. S. Richard of Genoa, each addressed the convention and added greatly to the interest of the occasion.  
The next annual convention will be held in Carson City.  
Resolutions expressive of the sentiments of the convention on the liquor traffic, the use of tobacco, the observance of the Sabbath, equal rights and woman suffrage, were adopted.

The following officers were elected for the ensuing year: President, Mrs. Lucy M. Van Deventer, re-elected, Reno; Corresponding Secretary, Mrs. C. L. Ward, Reno; Recording Secretary, Mrs. L. M. Westlake, Reno; Treasurer, Mrs. F. J. Crawford, Carson; Superintendent of Evangelistic, Mrs. E. J. Talbot, Elko; Associate Superintendent, M. Merrill, Reno; Superintendent Sabbath Observance, Mrs. J. A. Bready, Reno; Superintendent Song, Mrs. May Hanford, Carson; Superintendent Flower Mission, Miss Sybil Howe, Carson; Superintendent Young Woman's Work, Mrs. Lydia Williams, Genoa; Superintendent Scientific Temperance, Mrs. Louisa Jones, Reno; Superintendent Franchise, Mrs. C. B. Norcross, Reno; Associate Superintendent, Mrs. D. B. Boyd; Superintendent Narcotics, Mrs. D. W. George, Gold Hill; Superintendent Hygiene, Health and Heredity, Mrs. Dr. Cook, Mottville; Associate Superintendent, Mrs. J. Vansickle, Genoa; Superintendent Indian Work, Mrs. S. Blum, Reno; Superintendent Prison and Jail, Mrs. A. M. McCabe, Carson; Superintendent Juvenile and Sunday School, Mrs. T. E. Sisson, Carson; Superintendent Temperance Literature, Miss Dora Stanley, Reno; Superintendent Free Lance and Union Signal, Mrs. M. Deremer, Reno; Superintendent White Cross and White Shield, Mrs. M. Merrill, Reno; Superintendent Legislative and Petition, Mrs. E. Webster, Reno; Superintendent Press, Mrs. Menia Webster; Superintendent Work Among Foreigners, Mrs. Anderson, Carson; Superintendent Fair Work, Mrs. L. J. Flint, Reno.

UNIVERSITY SCIENTISTS.

The Geologic Formation of Pyramid to Be Investigated.  
Mr. Linderman conveyed the following named party, Professor Miller and wife, Miss B. Davis, Messrs. Magill, Barney, Frey, Clemons, Stewart, Sheriff, Brown, Swan and Durkee to Pyramid Lake this morning. They will remain there several days investigating the lake and surrounding country. We may expect many discoveries of an original and startling nature. The object will be to pay close attention to the geologic phenomena. It is thought they will discover the remains of Peter O'Dactyl, who perished in the Palaeozoic age. The public will begin a full report of their discoveries when they return.

There will be a balloon ascension and double parachute jump from an altitude of three or four thousand feet at Steamboat Springs next Sunday by Professor Nelson, under the management of Hagal, the celebrated aeronaut. The Virginia & Truckee Railroad will carry passengers to and from the Springs at reduced rates, and the exhibition will be free.

LOVELOCKS AROUSED.

The People Protest Against the Horizontal Raise.

LOVELOCKS, October 15, 1891.  
EDITOR STATE JOURNAL:—Our little burg received quite a shaking up a day or two ago. It was not an earthquake like that experienced in California about the same time, but the result of a very large mail from the State Capital containing notifications to about four-fifths of the tax-payers of the action of the Star Chamber Board of Equalization and Assessors of a raise of from twenty-five to thirty per cent. in their assessments, exclusive of the horizontal raise on all property—except railroads. The tax-payers were given one day's notice to appear and show cause why the raise should not be made. The time was so short and the raise so high that many were stunned by the shock, and only a few put in an appearance. The result is that the railroad will pay less taxes and the farmer more, though the road gets nine-tenths of the profits of farmers. Under such circumstances we all ought to quit farming and go to railroading.

MORE ON THE SUBJECT.

LOVELOCKS, October 15, 1891.  
EDITOR JOURNAL:—Grandiloquent Gray and Horizontal Horton made a short stop here yesterday. They were not accorded such a reception as men holding the positions they do should have had. There was no canonading, or any thing of that kind. People felt more like using a rope. The horizontal raise of twenty per cent. on every poor devil, whether it was justified or not, leaving the railroads out, has caused considerable feeling to exist, and the sentiments of the people are to contest this matter.

Petitions are already being circulated and numerous signed, urging every taxpayer in the county not to pay any more than a just rate of taxation. Two dry seasons and a hard winter, has left this end of the State poverty stricken. Everybody is trying to get a start again and build up the county, and place it on the same footing it had been before those destructive seasons came and took away nearly all they had. Stockmen have gone in debt head over heels to restore their ranges. Farmers have done likewise, and all are pulling for the prosperity of the State. During the last campaign last election, we were told that expenses would be cut down and everything done to lift the State out of the rut it had fallen into. But it seems that Twenty-per-cent. Torreyson, Grandiloquent Gray, Equalization Egan and Horizontal Horton have made up their minds to pay no attention to the campaign promises, but pinch the taxpayer horizontally, forgetting the railroads, add when asked their reason, they say they did not understand how the railroad was situated, and that is now too late to remedy the mistake.

People out this way don't think it is too late and it is possible that in placing the individual and horizontal raises they may have a chance to explain something about the methods before taxes are collected at this end. Let Humboldt, Washoe, Lander and all other counties in the State contest the action of the Board of State Assessors, and show them under so deep that none of them would ever again raise their heads politically, or even have cheek enough to say that they ever claimed a residence in the State.

A CANARD.

The New York Press Exposes That "Important Bill" Business.

The article credited to the New York Press in a recent issue of this paper, in which it was alleged that unfavorable action had been taken in the New York Legislature against the Royal Baking Powder, proves to have been a canard, gotten up and circulated by opposition baking powder makers for purposes quite apparent to every one.

The New York Press, in exposing the fraud, says: "No such legislation as that stated in this article has ever been had in this State—or in any Legislature, to our knowledge." The lie is made from whole cloth. The Press disclaims any responsibility for the publication, and objects to being made a party to such methods adopted by some baking powder manufacturers in their efforts to substitute their goods for others now in use.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

S. W. Bowman of Anburn, California, is visiting friends in Reno.

BUSINESS, LOCAL AND NEWS ITEMS.

For fine boots and shoes go to H. F. Pavola.  
Fine eastern hams and Bacon at W. S. Bailey's.

**NEVADA BUSINESS.**  
ADVERTISE IN THE DAILY AND WEEKLY RENO JOURNAL, established 25 years. If you want to do business in Nevada, advertise in the JOURNAL.

**A Suit Against the Brooklyn Bridge**  
In a short time the most important damage suit that has ever been brought against the Brooklyn Bridge will be tried. It is for \$1,000,000, and will involve some nice points of law. A Franco-American inventor named Du Bois is bringing the suit. He claims that in sinking the caissons of the bridge certain patents belonging to him were infringed upon, and that without the use of his inventions the bridge could not have been successfully built. So important does District Attorney Clarke consider the case, and of such grave moment to the interests of the two cities, that at his request the services of a well-known patent lawyer have been secured as counsel, and he has already received from the bridge \$1,000 as a retaining fee.

There is an interesting story told of Bridge Secretary Henry Beam in connection with the sinking of these caissons. He says that it was at first intended by the bridge engineers to sink a regular coffer dam, and on this place the big piles that support the bridge structure, but that William C. Kingsley opposed this plan, giving as his reasons for so doing that no ordinary coffer dam would hold in the fierce currents of the East river. Then it was that the sinking of the caissons was decided upon. In other words, they used a coffer dam, not in the regular fashion, but upside down. And now the wooden box rests on a bed of rock forty feet below the bottom of the river.

Mr. Beam says that Mr. Kingsley would have been the last man in the world to have allowed the invention of another man to be used in the construction of the bridge without paying him for it, and that if Du Bois' patents were infringed upon it was by accident and because the bridge engineers did not know that that style of coffer dam had been patented.—Brooklyn Eagle.

**Haman Discontent.**  
A rich man of Boston has one son. He led him about, he instructed him, he kept him as the apple of his eye. The son became of age this summer. The father has no other occupation save that of nursing his income, and as he is a man of sense and liberal views he told his son that he must not stand idle, yet left to him the choice of business or profession. At the same time he wrote privately to twenty-four friends and acquaintances asking their advice in the matter. The twenty-four were prominent each in his own calling. And each replied in turn, complaining of his business and advising the father to seek elsewhere for the future prosperity of the young man. The law was crowded, journalism brought but little money, banking was an uncertain prop, and so on throughout the catalogue. The father is still undecided, the boy is idle, and all because no one of the twenty-four is contented with his lot, while he admires the fortunes of other men.—Boston Post.

**New Lunar Crater.**  
A careful examination of a photographic negative of the moon recently obtained by means of the Lick telescope revealed the picture of a most important lunar crater whose existence had never been suspected previously. The explanation lies in the fact that the human eye is not so constituted that steady gazing will bring out the minutest details of the object looked at; on the contrary, the eye grows tired and details are lost. Not so the photographic plate, however; the effect of a constant pouring in of rays of light into the camera has a cumulative effect.

The longer the exposure under suitable circumstances, the greater the display of detail in the result. So in this case, the "photographic eye of science" takes cognizance of a crater on the moon's surface that has never been, and in all probability never will be, seen by human eyes.—New York Recorder.

**Over Three Years in a Mattress.**  
In July, 1889, Captain Joseph Lowe, of York, filled his bed with grass, which he had cut for that purpose. Soon after Mrs. Lowe thought she felt something moving under her side of the bed, but the captain told her it was imagination. Captain Lowe was afterward sick and laid upon that side of the bed, when he felt the same motion. In April, 1889, he died, but not until Tuesday of last week was the bed opened and emptied, when out came a live, healthy, but terrible hungry turtle. He was ravenous, and would snap at anything offered him, it is said. The straw or hay for two feet across was "chewed very fine."—York (Me.) Courant.

**A New Instrument.**  
A scientific instrument has been gotten up by Professor Bigelow which is called the aurora inclinometer. By extensive researches he has found that the same law which underlies the working of electricity and magnetism is operating on the sun, and that sunlight is a magnetic field in which the magnetized earth rotates as does the armature of a dynamo. The instrument will be sent to Alaska, where it will be used in the study of the aurora, as it is there seen in the best conditions.—New York Times.

**A Traveled Baby.**  
There was in this city recently on a visit a baby only about nine months old which has seen more traveling than commonly falls to the lot of most older people. It was born near Chicago and has since been to the City of Mexico, thence to Massachusetts, then to Portland, Me., and return, and is now living in Maynard. At that rate most of the world will be familiar ground in fifty years.—Marlboro Enterprise.

**Bill Paid After Many Years.**  
A young man in the employ of Emerson Hall over a quarter of a century ago contracted a little bill with Dr. H. C. Newell. It slipped his mind at the time and he always thought it paid until a few days ago, when he accidentally came across a bill from the doctor dated twenty-six years ago. He at once paid it. Such lunacy is indeed worth noting.—St. Johnsbury (Vt.) Cabotian.
